### Pre-Conference Workshops

**Pre-Conference Workshops on July 15, 2024**

**Integrating Gender into Fisheries and Aquaculture Economics and Trade Research**  
*This full-day workshop will be of interest to economists and interdisciplinary fisheries and aquaculture policy analysts, managers, researchers, and project planners wishing to deepen their understanding of the way gender structures economies and resource systems management and influences economic research and policy. (\$100)*

**Introduction to the Fisheries Performance Assessment Toolkit (FPAT):**  
*This half-day workshop will introduce users to the FPAT toolkit and examine some case studies carried out through the FAO's Coastal Fishery Initiative. Attendees will learn about the FPAT process, data and personnel needs, and the benefits of its application in fishery investment projects, as well as research collaboration.*

**Environmental Stewardship by Small-Scale Fisheries and Fishing Communities**  
*This half-day workshop will explore the ways in which small-scale fisheries, fishing communities and fishery organizations are at the heart of environmental conservation and stewardship, effectively conserving fishery resources and aquatic environments.*

**Foresight Modeling on Aquatic Food**  
*This half-day workshop will be of interest to economists, policy analysts, researchers, and policymakers who wish to deepen their understanding of the dynamics of fish production, consumption, trade, and prices to support national policy and decision-making.*
